INTERVIEW SUMMARY

1. Applicant's representative, Mitch Harris, authorized examiner to amend claim 1, including to delete "signal-bearing media" and add "computer readable storage medium" to overcome a possibility of 101 rejection, and to change the feature "said message" in claims 2, 11, 18, 20, and 27 to "said email message".

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The invention as claimed. Claims 1, 10 and 19 specially include limitation based upon responding to a detected customization setting, generating a user prompt to permit a user to automatically modify the text of the e-mail message (as defined in applicant's specification from page 9, line 1 to page 11 line 22 and Fig. 2). Although system and method for completing an e-mail transmission is firmly documented by cited prior art, the responding to a detected customization setting, generating a user prompt to permit a user to automatically modify the text of the e-mail message limitations are novel and the invention is patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Authorization for this examiner's amendment was given in a telephone interview with Mitch Harris (Registration No. 42,638) on October 27, 2006.
